This user manual will give you an overview of how you can enter results for a competition in BowlsLink. We use two examples, how to enter the results for a Pennant competition and entering results for a club competition.

Entering results for Pennant - Before the Match

Before the match, both sides will need to setup their teams. The first time this is done will require more steps, but once completed it will be much faster to setup teams for the following rounds. You can only setup your own teams, and both sides will need to complete this prior to the day of play. In the competitions section of BowlsLink you will be able to find all competitions and their current status.

1. Login to your BowlsLink account. On the left of your screen, click on the Competitions option, and then select My Club Entries.

- a.
2. Click on the In Play tab and look for the Pennant Competition you are setting up. Click on the action icon for the competition, and select the Manage Results option.

Click on in play

6. If you are a player short, you can set up the position you are missing to show this. Click on the down arrow and scroll through the list until you find UN-PLAYED. Select this name for the position that you are short.

a.

7. Once you have setup all positions in the team, you will need to repeat this process for all rinks. Note that once you have found and selected a player once, they will appear in the menu when you click on the down arrow. Both the home and away sides need to complete their teams before the day of play.

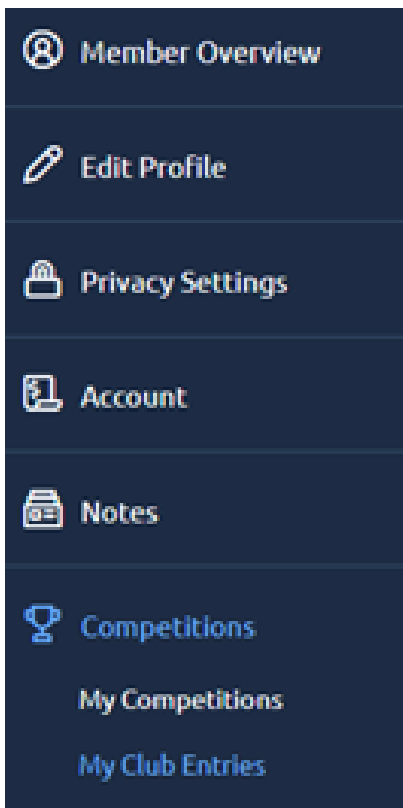

Entering results for Pennant - After the Match

Once the day of play is completed, it is time to enter the results.

Matching Skips

The first step is to setup which teams played each other. As this won't have been known in advance, teams will have been randomly paired up, The home team will setup which teams played, the away team is not able to do this in the system.

1. The home team logs on to their BowlsLink account. On the left of the screen, click on the Competitions option, and then select My Club Entries.

a.

2. Click on the In Play tab and look for the Pennant Competition you are entering results for. Click on the action icon for the competition, and select the Manage Results option.

5. Once the scores are confirmed, they are locked for both the home and away teams. Only a Competition Administrator can log in to change the scores.

Entering results for Pennant - Following Weeks

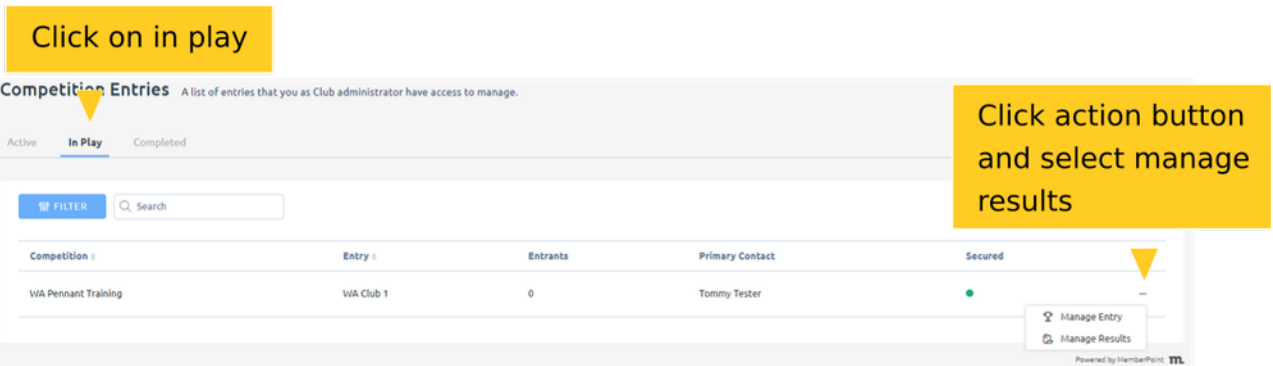

The team entry process for subsequent weeks will be much easier, as you can import teams from the previous week and make changes, rather than enter all the players again. The steps to do this are outlined below

1. Login to your BowsLink account. On the left of your screen, click on the Competitions option, and then select My Club Entries.

a.

- Click on the In Play tab and look for the Pennant Competition you are setting up. Click on the action icon for the competition, and select the Manage Results option.

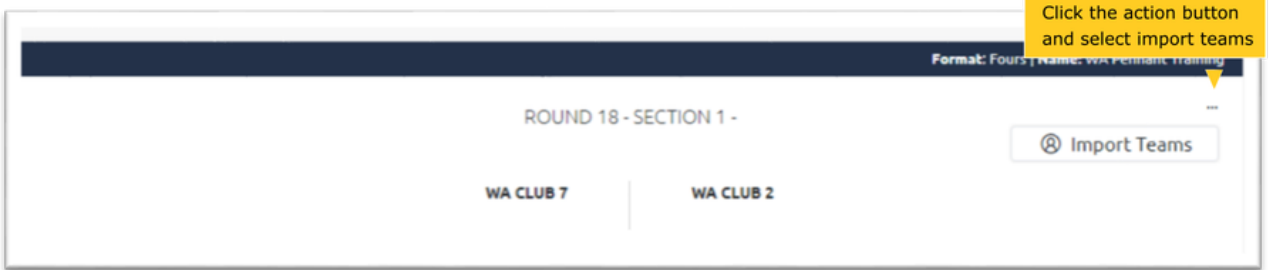

a.

- You will now be able to see the fixtures for this round. Locate the fixture you need to set up. Click on the action button to bring up the menu and select View Results.

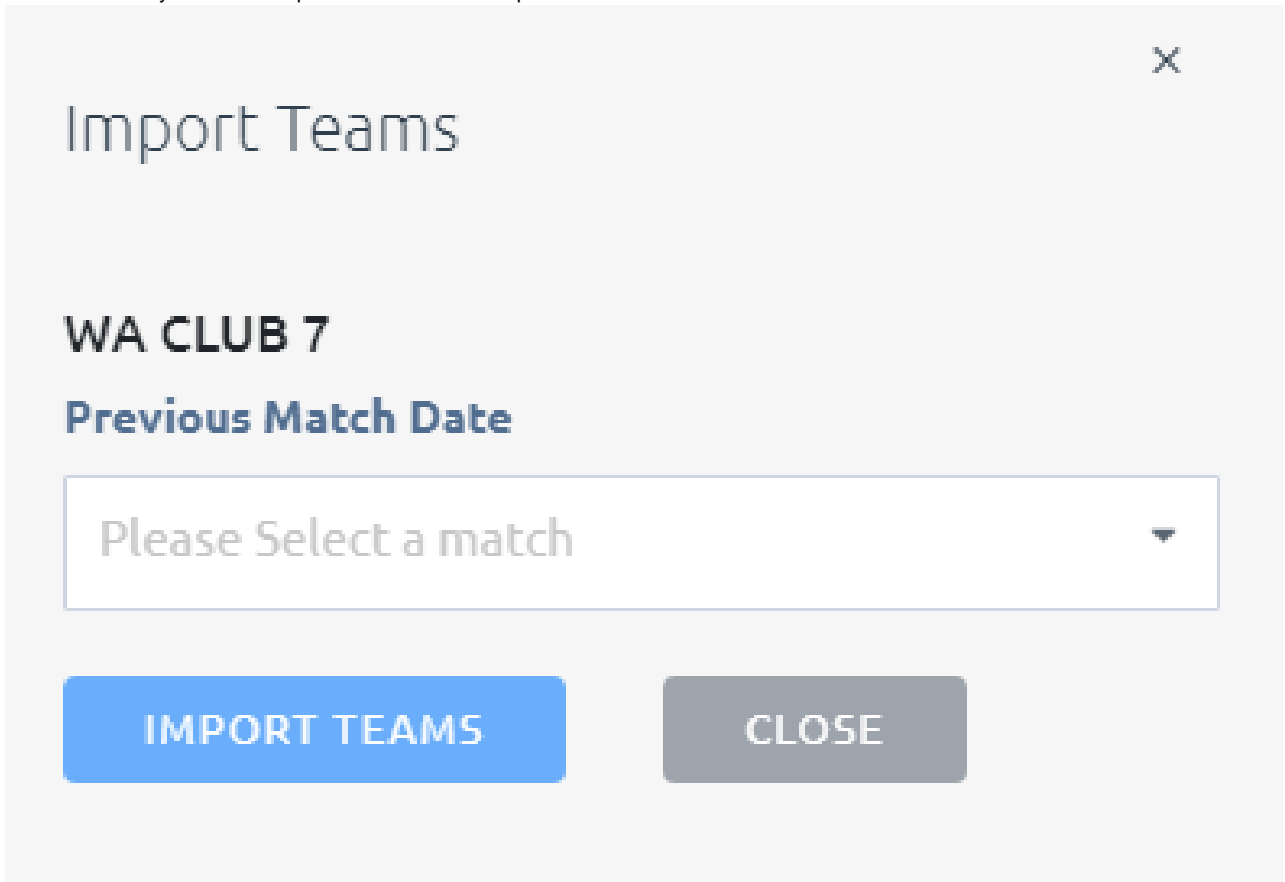

a.

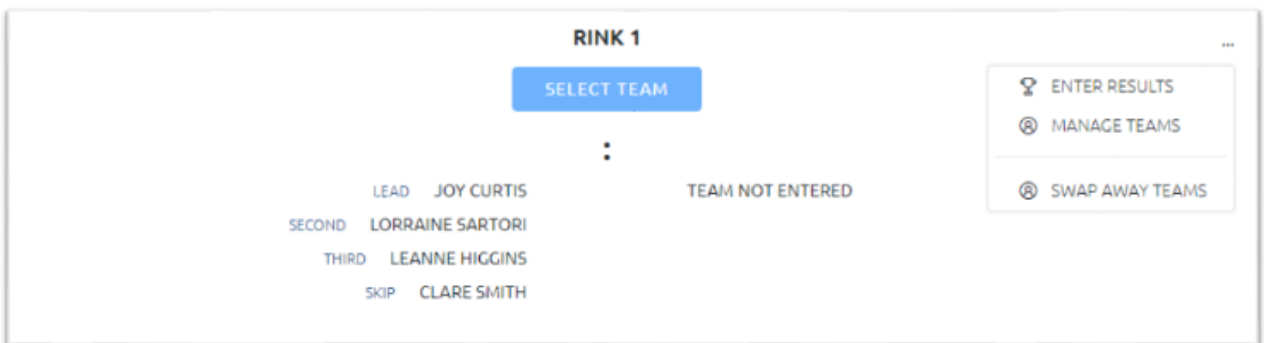

- Click on the action button in the top right of screen and select the Import Teams option.

- a.
- b. The system will now prompt for the week to import the team from. Click on the arrow to bring up a list of previous dates of fixtures. Select the week you want to import and click on the Import Teams button.

- c.
- d. The team members from that week will be imported to this fixture. If you need to edit any of the team members, simply click on the action button and select the Manage Teams option. This will allow you to change individual team members for the fixture.

- e.
- f. Repeat this process until all the fixtures are setup. You can now enter results as usual.

Entering results for other competitions

In this example we will look at an individual entering results for a tournament they are playing in. This is a singles knockout format with the player entering their own results.

Home Player

1. Click on the Competitions option on the left of screen, and click on the My Competitions option under this. Click on the In Play tab at the top, to see the current matches which results can be entered for.
